...the story, ...said
...the story ... said ... and then she blushed
... and ... are two girls with very different
... an unlikely but deep friendship develops
... they keep diaries, inspired by their heroine,
... . Soon the pages are filled with the
... of their most secret, ever.
... moving novel for older readers from the
... author of *The Illustrated Mum*
... and *The Story of Tracy Beaker*
... the story of Anne Frank is woven into this story ... this
... been a dangerous device for a lesser novelist,
... . This brilliant writer ...
... at its most unvarnished
... with dialogue and plot makes this a
... story about friendship.
